## **Hawkshead Brewery**

### **Windermere Pale 3.5%**

A highly refreshing, very pale ale, bursting with hop character and a fine fruity aroma. Brewed with a blend of three traditional English hops and the modern American hop, Citra. Like summer in a glass.

### **Bitter 3.7%**

A pale, hoppy and bitter ale: a slight elderflower aroma from Slovenian “Celeia” hops, followed by long bitterness. The hikers’ favourite - the perfect thirst quencher after a day on the Fells. A great session bitter.

### **Red 4.2%**

A ‘Best Bitter’ style Red Ale for those who like to taste the malt as well as the hops in beer. The colour comes from dark crystal malt. It is malty, spicy and bitter-sweet with a long dry finish and an easy drinking strength of 4.2% abv.

### **Lakeland Gold 4.4%**

A refreshing, well hopped, fruity and bitter Golden Ale with complex fruit flavours from the blending of English hop, First Gold, with the outrageously fruity American hop, Cascade. A hopheads’ beer... with balance. A real beer drinkers’ beer.

### **Brodie’s Prime 4.9%**

A well-hopped dark premium beer, with an unusual medley of flavours. It is rich and rounded and drinks a lot lighter than its 4.9%. It has a roasted edge, like a stout, but with contrasting spiciness and surprisingly pronounced fruit flavours from a mixture of English and American hops.

### **Lakeland Lager 5.0%**

A refreshing Pilsner style beer. Pale and golden with restrained but fresh hop character from European lager hops. Lager malt has been used, but the rules broken by using ale not lager yeast.

### **Iti 3.5%**

Named after the Maori word for ‘little’ this is NZPA’s little brother. Brewed with several NZ hops. Crisp with citrus and floral aromas on the nose and huge flavours of gooseberry, grapefruit & tropical fruit.
